What's New?

GPO Scorecard

- The Tier Minimum column now indicates what the number represents: A % now shows for agreements that requires a percentage, and a \$ now shows for agreements that require a dollar amount.
- A new QTR Achieved checkbox has been added to the filters to show agreements that have been achieved that quarter.
- The Days Over EOQ to Next Tier filter now allows you to enter a maximum of 1000, instead of the default 100.
- The Account Manager name no longer appears on the Scorecard.
- The Contract Unit Breakdown and Sold To Breakdown for historical scorecards now show the data for the selected quarter.

Value Report

- A Measure Period filter has been added that allows you to select the period or periods you want to view.

Rebate Allocation Report

- The Grandparent and Parent filters now include the Name, making it easier to select the correct entry without having to know the account number. The account number has also been added to the Child Site filter for consistency.
