What's New?

Baseline Reporting

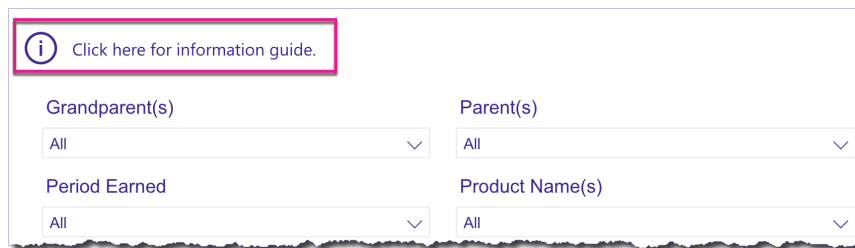

- The Roster Eligibility Report's "Period" filter is now in month format, so you can more easily choose Baseline eligibility. The filter shows one year previous to the current month.

GPO Scorecard

- Several enhancements were made to the Tier Minimum column when exporting the Scorecard to make it more apparent what the data represents:
 - For agreements that require a percentage, a percent sign has been added.
 - A dollar sign has been added for agreements requiring a dollar amount.
- The Export button has been temporarily removed from the Scorecard while some work is done to improve the logic behind the report.

Rebate Allocation Report

- A "Questions?" link has been added to the top of the report to make it easier to contact support with questions about the Rebate Allocation Report.
- A link to an information guide has been added to the top of the report. Clicking the link opens a new page that gives details about how the data is calculated in the report.

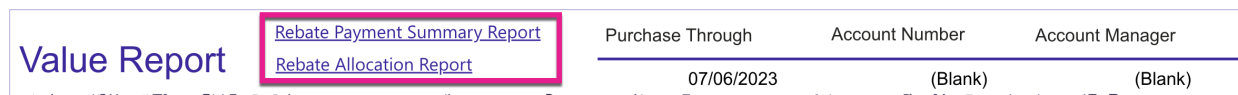

Rebate Payment Summary

- A "Questions?" link has been added to the top of the report to make it easier to contact support with questions about the Rebate Payment Summary.

Value Report

- Links have been added to the top of the Value Report to take you directly to the Rebate Payment Summary Report and Rebate Allocation Report. The links open in a new window.
