### What's New?

#### Universal Score

- GPO Members now have access to the Universal Score report in GPOconnect. The Universal Score report is a key resource for GPO Members to analyze opportunities on a drug by drug basis so that they may devise purchasing strategies at the beginning of the quarter. The Universal Score report provides critical information in understanding the best choice of drug for the current quarter considering current cost, ASP price, reimbursement and previous usage. The Universal Score report also includes margin as stated - anticipated rebate information. GPO Members will be notified of newly published Universal Score reports in the notification bell in GPOconnect.

Confidential and Proprietary: Universal Score

Drug Utilization Scale: High (dark blue) to Low (light blue)

## Enhancements

### GPO Scorecard

- The GPO Scorecard now supports page navigation instead of scrolling through a large list of selected products. This allows for easier navigation and a cleaner view of each product selected.
- Other updates to the GPO Scorecard include an added Playbook link to access the associated Contract Playbook as well as an option to export the selected GPO Scorecard raw data to a CSV file. Also, Rebate Agreements that overlap quarters will not show on both quarter scorecards so that the data is not impacted, they will only show on the quarter the period started in. The Quarter filter is now disabled until the Member Name is selected, and once the Quarter is selected the Manufacturer and Product lists will update based on the previous selections. Lastly, the Purchase Through date now shows the exact end date, rather than matching the period end date.

The screenshot displays the GPO Scorecard interface with the following elements:

### Release Notes 3.5

### Value Report

- The Value Report has been updated to include a Rebates & OID tab which combines the data in the Rebates and Off Invoice Discounts tabs to enable exporting of all the comprehensive Value Report.

The screenshot displays the 'Value Report' interface. At the top, there are navigation tabs for 'GPO Scorecard' and 'Value Report'. Below this, there are filter sections for 'Member', 'Drug Type', 'Product', and 'GPO Type', each with a dropdown menu set to 'All'. A 'Reset Filters' button is also present. A 'Period Selection' row shows tabs for various quarters from 2021 Q1 to 2022 S1. Below the filters, there are three tabs: 'Rebates', 'Off Invoice Discounts', and 'Rebates & OID', with the latter being highlighted by a red box. A table below the tabs shows data for 2021 and 2022, with columns for 'Year', 'Period', 'Product', and 'Rebates'/'OID' for each quarter. The table is partially obscured by a scroll bar.

### Manage GPOconnect Access

- GPOconnect now allows Admin users to edit permissions for other portal users in their organization. The assigned Privilege in the Other Portal Users tab drives access to specific pages and tiles in AB GPOconnect. Available personas include Admin, Full, Finance, Rostering, and Basic+. GPOconnect also includes descriptions of each persona prior to saving any updates.

The screenshot shows the 'Other Portal Users' management page. At the top, there are navigation tabs for 'My Profile', 'My Membership Records', and 'Other Portal Users'. Below this, there is a table with columns for 'First Name', 'Last Name', 'Email', and 'Privilege'. A red box highlights the 'Edit Permission' button next to a user. A modal window titled 'Edit Permission' is open, showing a 'Select Privilege' dropdown set to 'Full' and a 'Save' button. Below the dropdown, there is a list of permissions: Home, Contract Playbook, GPOConnect Cases, HIN Updates, Membership, My Account & Profile, Rebates, Request Account Changes, Reports & Analytics, Single Dose.
